

SMARTPlatform.com.au: Your gateway to a resilient supply chain

Defence and government contracts offer huge growth opportunities for manufacturers and regional hubs. But it's a challenging space with many governance & compliance hurdles.

Regional and local manufacturers have strong capabilities, and can play a valuable role in supplying products & services to large corporate & government groups, but they need the tools to engage and manage ongoing compliance obligations.

How do you navigate through this complexity, to ensure your business grows & prospers?

SMARTPlatform offers a solution to manage both the compliance requirements of Defence & Government buyers, and the growing risks from global supply chain volatility.

What are the challenges?

SMARTPlatform offers continuous compliance and a real-time predictive capability that allows you to respond to any adverse event rapidly, risk profilers make corporate risks highly visible. Real-time data feeds provide controls for downstream raw material and component buying.

Our two core objectives are to:

01

Insulate you from supply chain disruption

02

Enable you to manage operational & governance risks

Our process is simple:

- ☑ Identify your risks
- ☑ Plan for disruption & implement mitigation strategies
- ☑ Continuously measure all key events to stay ahead of the risk curve.

SMARTPlatform - Key Features

Visibility: Extensive big data capabilities offer a panoramic view of your supply chain network.

Real-time Responsiveness: Rapidly adapt to market volatility with real-time data feeds showing you where adverse events are arising allowing you to take counter measures.

Continuous Monitoring: Process-driven apps equipped with KPI measures and feedback loops.

Supplier Tracking: Track and trace suppliers from Tier 1 to Tier 4.

Compliance Control: Achieve continuous compliance through KPIs, performance measurement and audits.

Unlimited Collaboration: Collaborate seamlessly with unlimited user access for both internal staff and external suppliers.

Full suite of procurement apps: Supplier Compliance, Contract Management, Strategic Sourcing & Asset Management.

Support your downstream suppliers

Government & Corporate Buyers have to meet their compliance obligations, but many downstream suppliers don't have the resources to meet the multitude of standards, regulations and processes, creating a barrier to engagement with large buyers.

SMARTPlatform enables smaller suppliers to fulfill compliance obligations without the need to engage new resources.

Customize Your Journey

Choose from an array of applications tailored to your unique needs. SMARTPlatform offers solutions based on big data, AI/ML, transparency, real-time capabilities, continuous risk management, and asset lifecycle management.

You choose the applications that meet your immediate needs then add additional features as required

Process Driven

SMARTPlatform is a process driven system, integrating process control libraries aligned with risk plans and event triggered management, performance measurement, and escalation, which enable continuous compliance & audit of prescribed outcomes and regulatory obligations.

Highly Secure Environment

Cybersecurity is a key risk. We offer secure messaging and communication channels within the platform, reducing reliance on external email systems.

SMARTMarket - Blue Spec: Next-Generation Sourcing

SMARTMarket's Blue Spec buying engine can handle highly complex product comparison & procurement analysis. Predict price controls, enhance supply chain resilience, and counter supply disruptions or component failures with a well planned diversification strategy.

Summary

SMARTPlatform is a comprehensive solution for organizations wanting to navigate the Defence and Government contracts sector, bolster your supply chain resilience, and meet rigorous compliance and governance standards. It combines extensive data capabilities, real-time monitoring, process-driven applications, and a highly secure environment, ensuring your company can respond & adapt to an evolving landscape with confidence.
